EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jacqueline Garner on 18 February 2005.

Amendment

2. The application has been amended as follows:

In Claims

Claims 10-12 and 15-18 have been canceled.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: although newly cited US Patent 6,040,231 to Wu discloses etching a portion of the substrate in addition to the pad layer during a first etching step, there is no teaching or suggestion in Wu to motivate one of ordinary skill in the art to etch a portion of the substrate in the known method of Choi. In Wu's method, the substrate is etched to provide a trench having top corners, which are subsequently processed to form an aslope periphery at these top corners (note figs. 2C, 2D, and 2E of Wu). Since the trench of Choi has vertical sidewalls extending from the top to the bottom surfaces of the trench, there is no motivation to etch a portion of the substrate in the known method of Choi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
